

Knowledge for Leaders

Measured Dimensions Include:

- Coaching & Counseling
- Communicating Effectively
- Influence & Negotiation
- Managing Change
- Performance Management
- Setting Goals & Standards
- Managing Conflict
- Problem Solving & Decision Making

This 120 multiple-choice questionnaire is designed to measure individual knowledge of the most effective leadership behaviors in 8 leadership dimensions.

Leadership performance strategies, career development systems and risk management plans should provide clear perspectives on strengths and development needs for your organization's leadership.

Easy to administer and cost-effective, this assessment tool will help pinpoint both individual strengths and development needs for targeted individual development and succession planning strategies.

This assessment is appropriate for any employee.

All assessments come with a 1-hour individual feedback session for each participant. This is an excellent tool to ensure results of the assessment are understood and can be practically applied toward skill development.

Turning Personal Potential into Performance
